

Take payments anytime

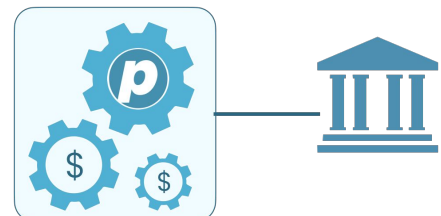

Auto-Payments

Ideal for businesses that want to provide customers with the opportunity to take payments when your staff are unavailable.

Three reasons to use Auto-Payments

- **Convenient** – Enable customers to make payments when they want
- **Efficient** – Take payments out of hours or when staff are busy
- **Compliant** – Enables you to comply with payment-card industry standards (PCI DSS) and avoid potential fines and payment surcharges

Customer uses their phone keypad to submit card details during your call

- ✓ Capture and verify customer or order reference information or your choice
- ✓ Simple, guided process
- ✓ Ideal add-on to live-agent payment options

To see Secure Virtual Terminal in action and to find out just how easy it is to protect your customers and your business, visit paytia.com/vt

Features at a glance

Customer-data protection and PCI DSS compliance made easy

No sensitive authorisation data enters your business, removing you from the scope of PCI DSS

Payments are taken using a simple, guided process where buyers use their keypad to submit card details

Integrates with existing IVRs or you can set up as a standalone solution

Take any type of payment during customer calls

Process payments direct to your payment provider

Verify your customers and reconcile payments – capture up to two order/invoice/customer references as standard

Define your preferred payment currency

Adapt to suit your operational processes

Customise the payment and order information you collect when taking a payment

Search and export transaction history, receive scheduled reports and alerts

Post transaction details and notifications to commerce, accounting, or any other business application using Paytia's APIs

Delight your customers, **never miss a sale**

Auto-Payments is part of an integrated suite of Paytia solutions that enable you to take payments securely anywhere, anytime, whatever the size of your business – from owner operator to international contact center.

Contact us to find out more about how Paytia can help you reinforce customer trust, comply PCI DSS and grow your business.
